

# CE,ISO9001 Nutrition Bar Manufacturing Equipment For Puffed Rice Bars

## Specifications :

Price	Contact Us
Brand Name	Loyal
Place of Origin	Shandong, China
Min.Order Quantity	1 set
Payment Terms	L/C,D/P,T/T,Western Union,MoneyGram
Supply Ability	20days / Cereal Bar Production Line
Delivery Detail	20days--35days
Packaging Details	Wooden case or wooden pellets depended on clients' requirement
Certification:	CE,ISO9001,SGS?BV

## Detail Introduction :

CEREALS BAR PRODUCTION LINE SPECIFICATIONS :

Why To Choose Automatic Cereal Bar Cutting Machine?

FINISHED PRODUCTS PICTURES:

Cereal bar production line was created to meet the rapidly growing demand for snickers bars, nougat, cereal bars, energy bars, fruit bars, protein bars and other products. Cereal bars can be made with oats, rice, nuts, dried fruit, chocolate, chocolate coated, cream coated, etc. Coordinate with the chocolate spray machine, it can produce all kinds chocolate compound products.

Cereal bars can be round, square, semicircular or triangular in shape. Because of its delicious taste, crisp taste, nutrition, easy to carry, popular market. At the same time, it has become a major meal replacement for fitness people. Cereal bar production line adopts advanced fully automated production technology. Cereals bars making machine has CE ISO9001 and can be used to produce puffed rice bars.

**Flow Chart Of Nutrition Bar Manufacturing Equipment**

Flow Chart Of Nutrition Bar Manufacturing Equipment		
No.	Machine	Nutrition Cereals Bar Manufacturing Machine Function
1	Peanut roasting machine	Mainly used for drying and baking products. Such as peanuts, nuts, bean, maize etc.

2	Sugar Heating Machine	Sugar heating machine is made of stainless steel and has heating devices to melt sugar and other ingredients (salt, cocoa, milk, etc.). It has double layer wall which keeps the temperature of mixture. It has big heated area, high thermal efficiency, short liquid material boiling time and the heating temperature is easy to control.
2	Ingredients Mixer	Ingredient mixer is mainly used for mixing nuts, grains, syrup and other ingredients together. The inside of the hopper is made of food-grade Teflon material, which is resistant to high temperature and corrosion, so as to avoid the mixture sticking to the inside of the hopper. It is strong and durable, with long service life. And it has Thermostat to maintain mixture temperature.
3	Feeding Conveyor	To transfer raw material from mixer to cutting machine.
4	Cutting Machine with Cooling Conveyor	Cutting machine includes hopper, roller (adjust product thickness), fan (cooling products), cutter (cutting length and width), conveying (cooling products after cutting). Product width can be adjusted by the replacement tool. The frequency converter is used to control the production speed, the mixed raw material is evenly flattened by multiple rolls, and the blower can keep the mixture stable.
5	Pillow Packing Machine	The food contact parts are made of 304 stainless steel, in line with QS and GMP. Suitable for moon cake, bread, biscuits, candy, medicine, daily necessities, hardware accessories, paper boxes, plastic products or various shapes of regular solid goods.

## CEREALS BAR PRODUCTION LINE SPECIFICATIONS :

CEREALS BAR PRODUCTION LINE SPECIFICATIONS	
Brand Name	Loyal
Material	Adopt 304 stainless steel.
Control system	Adopts advanced computer touch screen, plc control
Place of Origin	Shandong, China
Min.Order Quantity	1 set
Payment Terms	L/C, D/P, T/T, Western Union, Money Gram
Supply Ability	20days / Cereal Bar Production Line
Delivery Detail	20days--35days
Packaging Details	Wooden case or wooden pellets depended on clients' requirement
Certification:	CE, ISO9001, SGS, BV

## CEREALS BAR PRODUCTION LINE SPECIFICATIONS

### Why To Choose Automatic Cereal Bar Cutting Machine?

Advantage of Automatic Cereal Bar Cutting Machine	
1	Adopts advanced computer touch screen, plc control, variable frequency speed control and automatic deviation.
2	It adopts continuous automatic feeding, flattening, dicing and conveying.
3	The machine frame is made of standard heavy profiles through welding, ensuring sufficient rigidity and strength. The external part is made of 304 stainless steel.
4	One line can make cereal bar snack, peanut candy and so on.
5	Cut the specifications can be adjusted to meet customer's needs of different products.

### CE,ISO9001 Nutrition Bar Manufacturing Equipment For Puffed Rice Bars

Nutrition Bar Manufacturing Equipment For Puffed Rice Bars			
Machine Name	Capacity	Dimension	Characteristics
1.Grain puffing machine	100kg/h	1320*970*960mm	With a heated area, high thermal efficiency, uniform heating, the liquid material boiling time is short, easy to control the heating temperature.

2.Sugar Cooker	100L	1320*970*960mm	This device fitted with a thermostat, the temperature is easy to control. Applies to hospitals, preparation rooms, laboratories, research institutes, can also be used in confectionery, beverages, canned food processing units.
	200L	1550*1200*1100mm	
3.Mixing Machine	3-8kg/time	800*1400*820mm	Material: frame channel steel spray painting treatment, pot body stainless steel, inner wall spraying Teflon, stirring shaft, stirring claw spraying Teflon.
	12-20kg/time	800*1650*1600mm	
4.Granola bar cutting machine /granola bar press machine	150-200kg/h	1880*1110*1160mm	Microcomputer PLC control, adjustable speed and height,Error can be corrected.The horizontal knife is equipped with an air pump auxiliary pressure device, and the cutting effect is good.
