

Multi-Functional Stainless Steel Commercial Orchid Beans Frying Machine With Oil Filtration System

Specifications :

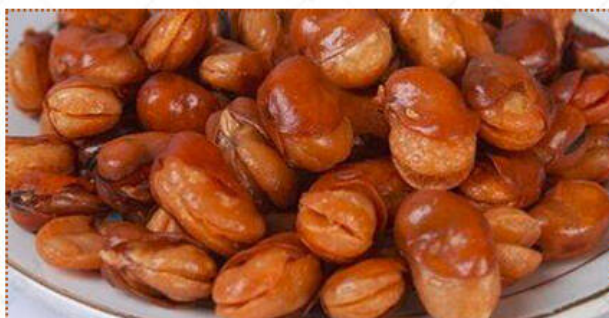

Brand Name	LOYAL Fryer Sterilization Machine
Place of Origin	China
Min.Order Quantity	1set
Supply Ability	25Days of Commercial orchid beans frying machine
Packaging Details	Export-compliant frying equipment packaging
Honor	A Number Of National Fryer Equipment Patents
Technology	8 Years Of Fryer Technology

Detail Introduction :

Technical Parameter Of Multi-functional Stainless Steel Commercial Orchid Beans Frying Machine With Oil Filtration System

ABB Motor Of Multi-functional Stainless Steel Commercial Orchid Beans Frying Machine With Oil Filtration System

Commercial continuous deep fryer for orchid beans can fry continuously with consistent quality in automatic orchid beans making lines. As a result, multi-functional stainless steel commercial orchid beans frying machine with oil filtration system is suitable for large scale food making plant which need great production capacity. Besides, due to its robust design with stainless steels, the continuous chips frying machines can work for long times non-stop. Built with advanced technology, our loyal designed continuous mesh belt frying machine can ensure constant high temperature of oil and allow you to adjust frying time according to your needs. Besides, the multi-functional stainless steel commercial orchid beans frying machine with oil filtration system are specially designed to save water, oil and energy during the frying process.

Application Of Commercial Orchid Beans Frying Machine

How To Fry Orchid Beans?

Orchid Beans is deeply loved by both domestic and foreign friends. Due to regional problems, the tastes vary from place to place. Before starting production, multi-functional stainless steel commercial orchid beans frying machine with oil filtration system is best to choose the new broad beans of the year. The grains are full, uniform in size, intact, and the bad broad beans with mildew and black spots are removed. Wash them with water to remove impurities. Frying is the main practice of orchid beans. Most manufacturers will use continuous fryers for production.

The Steps Of Starting The Commercial Continuous Deep Fryer

1. Add oil to the fryer until it is above the non-stick pan.
2. Press the heating power control switch on the power distribution cabinet.
3. According to the production needs, then the person in charge of the equipment sets the oil temperature parameters of the fryer.
4. Turn on the slag scraper control power supply and filter oil, circulating pump system.
5. When the oil temperature rises above 150 °, start A mesh belt, then the B non-stick pan and oil supply power control.

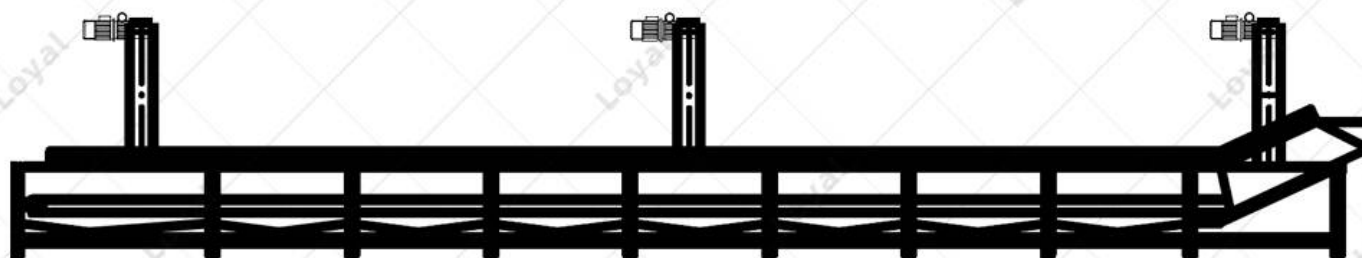

At the end of multi-functional stainless steel commercial orchid beans frying machine with oil filtration system production, notify the oil furnace to turn off the heating system 10 minutes in advance. Also notify refrigeration to stop cooling 10 minutes in advance.

Why To Choose Multi-functional Stainless Steel Commercial Orchid Beans Frying Machine With Oil Filtration System?

The Features Of The Continuous Mesh Belt Frying Machine

1	Multi-functional stainless steel commercial orchid beans frying machine with oil filtration system. Brand electronic apparatus ensure the excellent and stable performance.
2	Controller box made of stainless steel or sprayed-plastic(optional), allows adjust frying time and variable conveying speed as required, alarm oil Level.
3	Electric belt and upper cover lifting setting, make cleaning more easier and save human power.
4	Different heating methods optional: electricity, LPG, natural gas, diesel etc.

The Advantages Of The Industrial Fryer Oil Filtration System

1	Multi-functional stainless steel commercial orchid beans frying machine with oil filtration adopts "water-oil separator" which can keep the oil clean and continuous working. The oil and temperature can be controlled automatically.
2	Frying all kinds of foods without the Taint of odor. No oil smoke, Frying machine can ensure health of the operator.
3	With characteristics of controlling the temperature automatically, even heating, Frying machine keep stable temperature and the nutrition of frying foods. Easy operation, one person can operate.
4	Made of 304 stainless steel materials, with long service life and can reach the hygiene standard.

What Is The Application Of The Multi-Functional Stainless Steel Commercial Frying Machine?

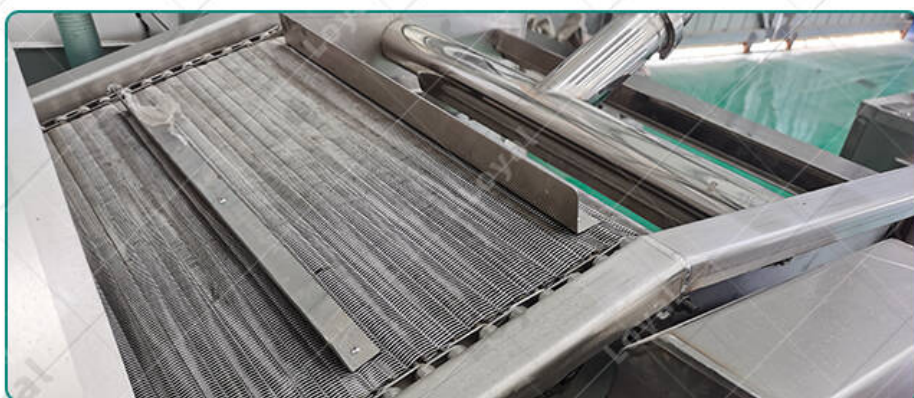

The Applications Of The Continuous Mesh Belt Frying Machine

Cooked Wheaten Food	Fried dough twist, rice crust, honey food, deep-fried dough sticks. Also fried glutinous rice, sesame, gluten, polished glutinous rice stick, caramel treats, thin fried dough twists.
Meat	Braised chicken (coloring), pressed salted duck (coloring), braised pork, braised pork, streaky pork, drumstick and pig's feet, etc.
Nut Fruits	Groundnut kernels, green soya bean, broad bean, sunflower seed.
Bean Products	Dried tofu, bean curd, fish bean curd, bread made by tofu.
Marine Food Products	Multi-functional stainless steel commercial orchid beans frying machine with oil filtration fry various fish, peeled prawns, scallop, fish, squid rings, squid.
